Rubber In A Can

Rubberized coating/sealant – watertight, flexible

DANGER! EXTREMELY FLAMMABLE
AEROSOL VAPOR HARMFUL SKIN, EYE AND RESPIRATORY IRRITANT.
CONTENTS UNDER PRESSURE.
Read other cautions on back panel.

NET WEIGHT 12 OZ. 340 (g.)

Alvin Rubber In A Can is a liquid rubber coating/sealer in a handy aerosol can. Do not overspray or apply too thick. This will hinder the product’s performance and drip and sag on a vertical surface. Visit web site for complete instructions, application photos.

Contains: Propane/Isobutane/n-Butane(68476-86-8), Methyl Acetate(79-20-9), Toluene(108-88-3), and Aliphatic Petroleum Distillates(64742-89-8). May affect the brain or nervous system causing dizziness, headache or nausea. Causes nose, throat, eye and skin irritation. Can be absorbed through the skin. May cause kidney damage. Do not puncture or incinerate (burn) container. Exposure to heat or prolonged exposure to sun may cause bursting. Do not store at temperatures above 120°F.

NOTICE: Reports have associated repeated or prolonged occupational overexposure to solvents with permanent brain and nervous system damage. Intentional misuse by deliberately concentrating and inhaling the contents may be harmful or fatal. Vapors may ignite explosively. Keep away from heat, sparks and flame. VAPORS MAY CAUSE FLASH FIRE. Do not smoke. Extinguish all flames and pilot lights, and turn off stoves, heaters, electric motors and other sources of ignition during use and until all vapors are gone. Prevent build-up of vapors by opening all windows and doors to achieve cross-ventilation. Use only with adequate ventilation. Do not breathe vapors or spray mist. Ensure fresh air entry during application and drying. If you experience eye watering, headache or dizziness or if air monitoring demonstrates vapor/mist levels are above applicable limits, wear an appropriate, properly fitted respirator (NIOSH approved) during and after application. Follow respirator manufacturer’s directions for respirator use. Avoid contact with eyes, skin and clothing. Wash thoroughly after handling.

FIRST AID: In case of eye contact, flush immediately with plenty of water for at least 15 minutes and call poison control center, hospital emergency room, or physician immediately; for skin, wash thoroughly with soap and water. If you experience difficulty in breathing, leave the area to obtain fresh air. If continued difficulty is experienced, call poison control center, hospital emergency room, or physician immediately. If swallowed, do not induce vomiting. Call poison control center, hospital emergency room, or physician immediately.

WARNING: This product contains a chemical known to the State of California to cause cancer and birth defects or other reproductive harm.

KEEP OUT OF REACH OF CHILDREN.

WARNING! If you scrape, sand or remove old paint, you may release lead dust. LEAD IS TOXIC. Contact the National Lead Information Hotline at 1-800-424-LEAD or log on to www.epa.gov/lead.

DIRECTIONS: Before applying observe safety precautions. DO NOT APPLY TO HOT SURFACE. USE ONLY IN WELL VENTILATED AREA. SHAKE WELL BEFORE USING. Make certain surfaces and contents of item to be painted have completely cooled down. Do not apply unless surface temperature is between 60-90°F (16-32°C). Remove all dust, dirt, rust, oil, grease and loose paint from surface. Roughen any glossy paint with sandpaper. Mask off areas not to be sprayed. Protect adjacent areas with drop cloths or newspapers. For best results apply when spray can and room temperatures are between 60-80°F (16-27°C). Shake can vigorously for one minute after mixing ball rattles freely to ensure proper mixing and to prevent spray head from clogging. Repeat frequently during use. Hold can 12-15 inches from surface and apply using steady even strokes. Apply two light coats allowing 10 minutes drying time between coats. Clean spray head immediately after use by turning can upside down and spraying until no more paint appears. If clogging occurs remove spray head and clean with a fine wire. Replace carefully painting can and spray head opening away from you. Dispose of can in accordance with applicable regulations. DO NOT burn or place in home garbage compactor. Fresh paint may give off mild fumes and smoke the first few times the stove is fired. Provide fresh air ventilation during first 2-3 burns. Smoke and odor should disappear and not be a problem thereafter.
